

Our Competencies / Experience

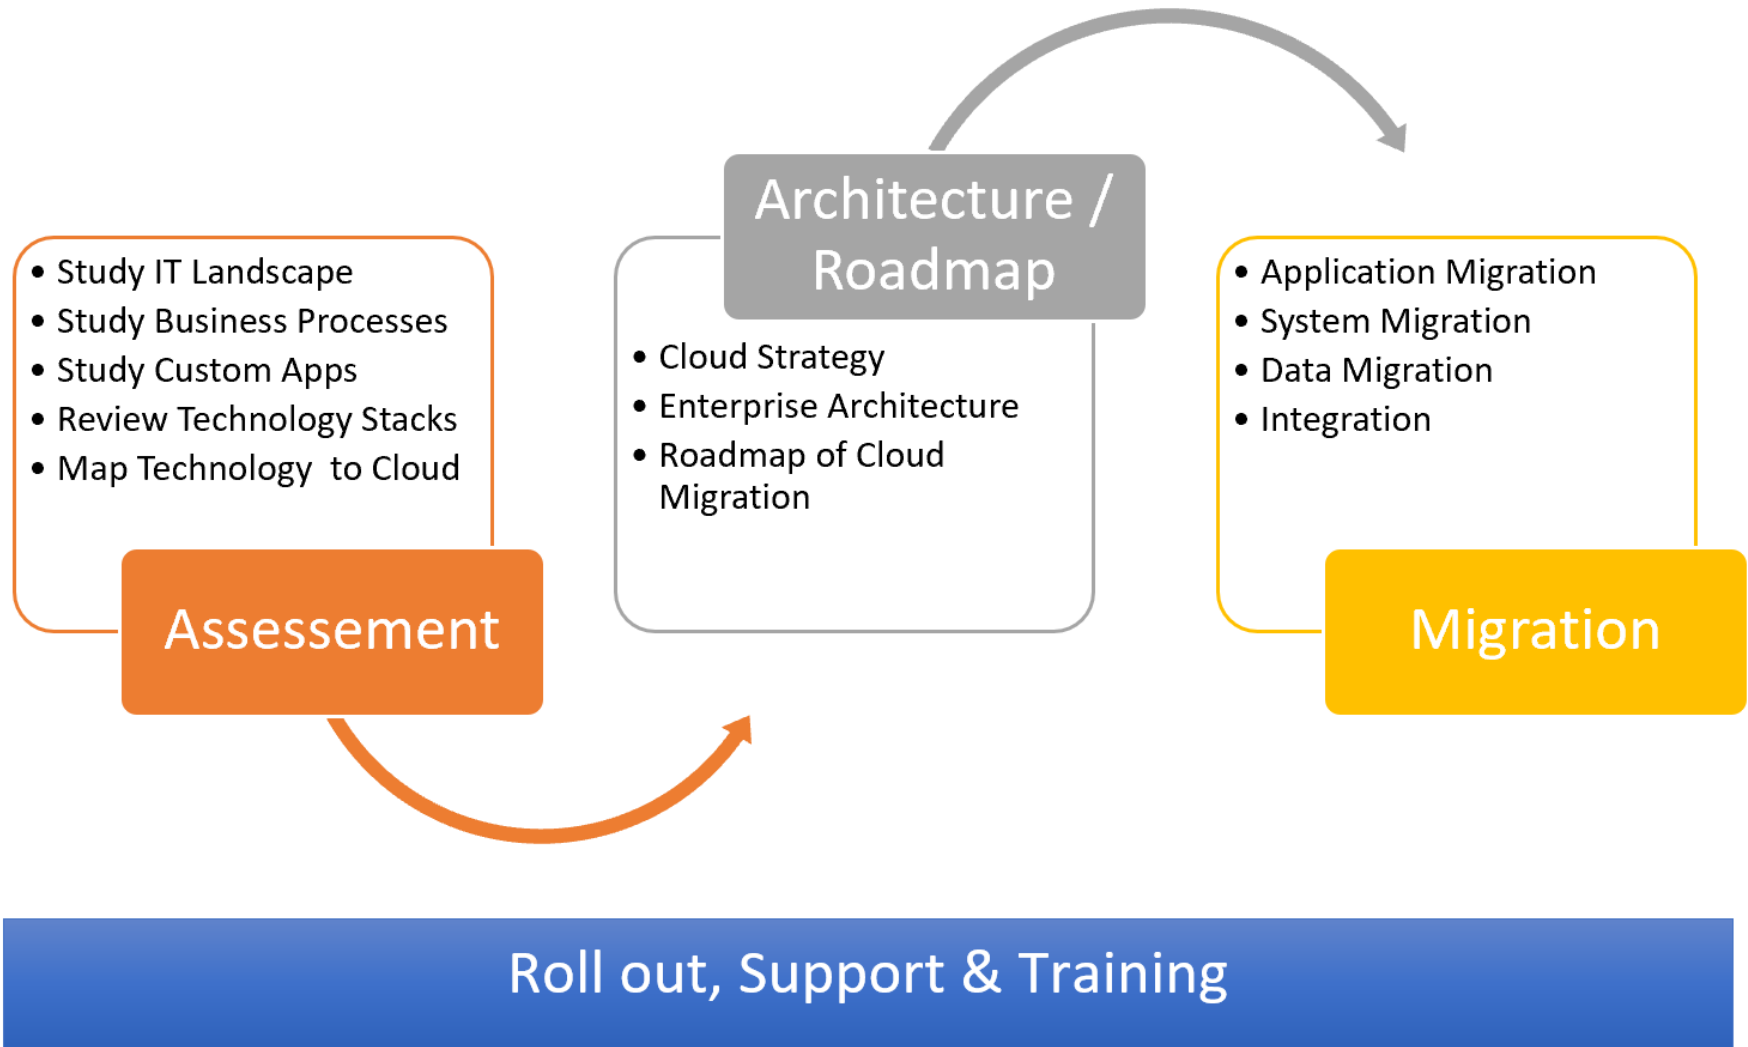

As SAP's Master VAR Extended Business Program Member, we offer End-to-End Technology Consulting in S/4 HANA and SAP R/3. Pandit View Software divides the process into three phases:

- Assessment and Pre-Implementation Phase
- Development & Implementation Phase
- Post-Implementation Phase

The scope of the Assessment and Pre-Implementation Phase comprises of the following, but not limited to Reviewing Business Priorities, Assessing Solution Needs, Preparing roadmap, Defining Technology, Cloud Strategy and Preparing the Blueprint. During the second phase of the process, Pandit View Software primarily defines the user experience and Implements the solutions. The final phase or the Post-Implementation phase involves the rollout of the solution. Pandit View also offers Post Production support as a part of this phase.

Pandit View's Cloud Consulting strategy is customized to meet your organization's needs. It is basically a four-stage process as shown below.

Industry Verticals:

Our client base includes Wireless Providers, Sweetener Producers, Internet providers, Telecommunications, Equipment Manufacturers and Fortune 500/ Fortune 1000 companies. We executed multi-year, multi-location projects for many of these customers. We designed and implemented effective software solutions for warehouses (up to a million square feet). Also enabled to build complex raw material, inventory and billing management systems with RF capabilities.
