

## Implementation Methodology

We use the proper methodology on all our projects to ensure the correctness of our solutions to our clients' problems (i.e., SAP Solution Manager and the ASAP Methodology for SAP Project Management and SAP Quality Analysis). Thus, we have both the tools and the experience to provide the highest quality Production Support for our clients.

As an experienced and proven SAP service and solution provider, we take pride in our reputation of delivering the **highest quality product with quick implementation, minimal support, and compliance with budget constraints**. We provide Remote and SAP spot consulting in all SAP modules.

what the top consulting  
firms charge.

## About Pandit View

Pandit View Software is an SAP Implementation firm with our core strength in Technical and Functional upgrades, Optimization, Enterprise Mobility and Production Support for corporate and public sector clients.

We provide Platinum Certified practice leads from all three of our locations (US, Singapore and India). Providing Platinum Level consultants at a fraction of the cost of the big consulting firms is our strength.

## Who we are

Pandit View Software is an ERP Solutions and Consulting firm specializing in the technical and functional modules of SAP with focus in WM/LE, MM, FI/CO, PP, SD, CRM, ABAP, BI and Workflow.

Pandit View Software was incorporated in 2004 with headquarters in Denver, Colorado, with branches in India and Singapore. We are an **SAP Certified Referral Reseller™** with the industry reputation of excellent service in **Technical** and **Functional** upgrades of SAP.

Our clients include Wireless Providers, Sweetener Producers, Telecommunications, Equipment Manufacturers, and Fortune 500 companies.

## ERP Staff Augmentation

Pandit View Software staff augmentation services provide solutions for businesses requiring experienced resources that can deliver immediate results to their enterprise system projects.

Whether it's a short term technical upgrade, new implementation or migration, Pandit View Software is there to provide the right functional and technical resources the first time.

Your trusted SAP integration partner

## Platinum Level SAP Professionals

Pandit View Software provides **Platinum-level SAP professionals for best possible rates.** Many of our professionals have worked together as a team on previous SAP projects. The **cohesiveness** in our proposed team is present from the very first day of the engagement. This dramatically **improves overall efficiency** and will allow the client to get the maximum benefit from its contractor SAP team.

We are proud to say that Pandit View Software is a support provider with the right resources, tools, certifications, and software with an appropriate methodology. Our consultants are well aware of standard SAP procedures and will be able to “hit the ground running” when it comes to delivering the project on time and within the budget for the client.

## SAP Upgrades

SAP upgrades provide increased efficiency, productivity and flexibility to your business needs to maximize new market opportunities.

Understanding exactly what aspect of your SAP landscape to upgrade, and timing for executing the implementation or upgrade, Pandit View Software uses best practices for ensuring your upgrade project stays on track and minimizes upgrade costs.

## SAP Enterprise Mobility

Pandit View will be offering an SAP Enterprise Mobility package that delivers the benefits of mobility through device and application control management. Solutions and services that will make it easy and affordable for businesses of all sizes to realize the benefits of mobilizing their SAP and SAP BusinessObjects solutions.

Your trusted SAP integration partner

## Awards & Recognition

- Small Business of the Year 2010 awarded by the National US-India Chamber of Commerce (NUICC). Pandit View gained recognition for contributions to US-India relations and commercial partnership to deepen bilateral trade and investment linkages.
- GITEX-India 2007 Award of Excellence for the initiation of IT in TIER II cities in the state of Andhra Pradesh-India which helped increased revenues for the state's economy.
